Annual index to contents

Volume 157, Jan. 1 to June 15, 1983

The first figure is the issue number found on page 3; the second is the page number. Entries followed by words in parentheses indicate that the material appeared in one of the magazine's departments.

Production and propagation

Aids to Rooting: Hormones (Propagation for beginners) . . . 1:130
Aids to Rooting: Misting (Propagation for beginners) . . . 7:110
Aids to Rooting: Misting 2 (Propagation for beginners) . . . 9:130
Aids to Rooting: Wounding (Propagation for beginners) . . . 5:106
Benefits and requirements of trickle irrigation . . . 11:88
Blue Eagle high-quality foliage . . . 11:28
British survey compares poly bags and pots . . . 4:84
Christmas tree growers sell all their stock . . . 3:45
Containers vs. poly bags . . . 1:101
Developing effective soil mixes . . . 8:92
Different approach for Oregon container nursery . . . 1:54
Direct rooting benefits container growers . . . 1:73
Efficiency helps Schmidt's compete . . . 8:28
Efficient bedding plants and production methods . . . 7:75
Evolution and the container system . . . 1:119
Fertilization programs yield better crops . . . 2:51
Fertilizer rate and timing, nutrient uptake and hardiness . . . 8:79
Florida nursery succeeds through diversification . . . 10:71
Growers cover plants for winter . . . 1:113
Guidelines for effective pruning . . . 11:69
Heating techniques save money for growers . . . 2:35
High-humidity propagation . . . 7:57
How to collect tree seeds . . . 2:71
How to propagate nursery stock — External controls . 2:89
How to propagate nursery stock — The basics . . . 2:83
How two nurseries use tissue culture . . . 9:107
Importance of sanitation (Propagation for beginners) . . . 11:96
Light and Viburnum growth, nutrient uptake, hardiness . . . 3:93
Maine nursery freezes plants for winter . . . 4:33
Minnesota System of container production . . . 1:95
Mixing hormones (Propagation for beginners) . . . 3:102
Mulches' and antitranspirants' effects on evergreens . 4:47
New practices promising for field-grown roses . . . 3:73
Nutrition programs for container plants . . . 1:109
Ohio nursery uses direct sticking for propagation . . 11:73
Oregon nurserymen share budding and grafting techniques . . . 5:65
Perennials: Growing on . . . 11:35
Perennials: Promoting sales . . . 12:59
Perennials: Propagation . . . 10:47
Perennials: Setting up . . . 9:97
Phosphorus in pine bark media: Suitable level . . . 2:48
Phosphorus in pine bark media: Superphosphate . . . 2:49
Plant production research . . . 2:77
Propagating native plants from seeds and cuttings . 9:100
Propagating woody plants from tissue culture . . . 1:65
Propagation for beginners . . . 1:130; 3:102; 5:106; 7:110; 9:130; 11:96
Propagation methods for difficult plants . . . 11:94
Protecting vegetables against lead uptake . . . 8:86
Research on the effects of light on plants . . . 5:83
Size and shape of container for growing seedlings . . 1:87
Square containers to avoid winter damage . . . 1:79
Woody plants: Southern production techniques . . . 3:83

Exterior landscaping

Brickman mixes design, installation and maintenance . 6:76
Clarence Davids & Sons maintains success and landscapes . . . 6:65
The entrance makes the difference . . . 6:95
Extending planting into summer . . . 8:150
Helicopter provides solution to landscape problem . . 7:98
Herbaceous plants add life to landscapes . . . 6:146
How to appraise plants in the landscape . . . 8:25
John L. Masek succeeds with personal service . . . 6:60
Landscape architecture in the 21st century . . . 6:53
Landscape designers put conservation in plans . . . 7:65
A landscape that meets clients' needs . . . 6:91
Landscapers discuss state of the industry . . . 6:29
Landscapes show how professionals solve thorny problems . . . 6:83
Landscaping at EPCOT provides glimpse of tomorrow 6:35
Landscaping good enough to eat . . . 6:124
Managing turf under shade . . . 8:94
Native plants blend distinctiveness with low maintenance . . . 6:98
Plants are part of the space program . . . 6:142
Replace boring yards with exciting landscapes . . . 6:133
Residential landscape design
The front entrance . . . 5:93
Solving parking problems . . . 11:53
Suggestions for selling professionally . . . 5:104

Interior landscaping

Art principles aid interior landscape design . . . 5:49
Basics of maintaining large interior landscapes . . . 4:29
Blue Eagle high-quality foliage . . . 11:28
Flowering plants for interiors . . . 9:92
Foliage and flower industry . . . 8:51
Green Expectations capitalizes on corporate market . 2:60
How interior landscape companies expand . . . 6:137
How to prepare plants for installation . . . 12:49
Interior landscapers' success with designers . . . 3:69
Light requirements of interior plants . . . 7:85
A look at the future of interior landscaping . . . 5:102
Potted Plant achieves more with less . . . 10:60

Garden centers and retailing

Boosting business with produce . . . 12:84
Cooperation can help retailers cope with market . . . 3:97
Garden center creates "room" settings with plants . . 5:35
Garden center market: Conditions and competitors . 11:59
Garden center market: Coping in marketplace . . . 12:29
Gift and decorations shows . . . 3:61
Gingerbread Farm earns perennial profits . . . 9:121
How to improve garden center sales . . . 8:41
Market uncommon plants for bang-up sales . . . 8:37
Preview of the 1983 American Toy Fair . . . 3:58
Perennials: Promoting sales . . . 12:59
Retailers are surprised by good sales . . . 3:53
Shopping the shows — How one nurseryman does it . 3:63
A strategy for merchandising competitively . . . 9:112
Tips for selling roses . . . 9:128
Traditionalism dominates decorations for Christmas . 3:33

Management

Allocation methods for multiple ownership . . . 5:75
Combine salary and performance evaluations? . . . 12:63
Extending planting into summer . . . 6:150
Grower's recommendations for streamlining management . . . 7:106
Image management is not done with mirrors . . . 7:41
Nursery management requires proficiency . . . 4:81
Organizing to meet goals — Company structure . . . 4:73
Selecting microcomputer equipment . . . 11:43
Shopping the shows — How one nurseryman does it . 3:63
Some banking and financing tips . . . 5:39
Successful nursery management
How to make a brochure . . . 10:77
Store surveys can guide business decisions . . . 12:38
Suggestions for selling professionally . . . 5:104
Suggestions for training employees professionally . 7:102
Tips for buying nursery stock . . . 7:49
Tips on building management skills . . . 8:47

Pest, disease and weed control

Anthracnose (Disease control) . . . 4:93
Clearwing borer life cycles . . . 4:57
Controlling Cuban laurel thrips . . . 8:63
Effects of radiation on black root rot pathogen . . . 8:69
European pine sawfly (Pest control) . . . 4:92
Glyphosate tested for perennial weeds . . . 10:83
Handling pesticide spills . . . 8:90
Herbicides are safe if used properly . . . 7:81
How to protect honeybees when using pesticides . 11:83
Insecticides evaluated for oleander pit scale . . . 10:55
Mite detection and control (Pest control) . . . 2:104
Pine shoot moth problem for bristle-cone pines . . . 7:89
Resistance to insecticides, fungicides and herbicides . . . 4:85
Sprayers for applying pesticides . . . 11:77
Weeds that prevent crop seed growth . . . 7:91

Plants and plant recommendations

'Bankers' willow helps curb erosion . . . 12:55
Bedding plants and production methods mean efficiency . . . 7:75
Dwarf spireas to consider . . . 9:126
Flowering plants for interiors . . . 9:92
Fragrant plants for the garden . . . 10:38
'Golden' chinquapin provides food for wildlife . . . 9:71
Herbaceous plants add life to landscapes . . . 6:146
'Indigo' dogwood — A new plant with many uses . . . 7:96
Landscaping good enough to eat . . . 6:124
Monarch birch for American landscapes? . . . 3:79
Native plants blend distinctiveness with low maintenance . . . 6:98
Plants are part of the space program . . . 6:142
Recommended plants that need little water . . . 9:75
Seaside plants for problem landscapes . . . 9:85
Three roses receive All-America honors . . . 9:28
Two new elms offer disease resistance . . . 9:67
Witch hazels deserve a spot in the landscape . . . 5:53
Zinnia All-America Selections winner . . . 9:27

General topics

Cooperation is key to Dutch horticulture . . . 2:39
Establishing community forestry programs . . . 11:92
Guidelines for evaluating tree losses . . . 7:100
How to appraise plants in the landscape . . . 8:25
Increasing survival of trees after transplanting . . . 12:79
Marketing and exporting for Northwest growers . . . 2:55
More growers report on fall sales . . . 1:124
More retailers tell of fall business . . . 1:126
National Arboretum plans country garden . . . 9:65
Ohio perennial grower saves and makes money on energy . . . 5:43
Preventive maintenance helps equipment last . . . 7:104
Reflective materials help prevent sunscald . . . 12:69
Spring flower shows: . . . 9:33

Landscape Architecture
A Manual of Site Planning and Design
by
John Ormsbee Simonds

Expanded, updated and revised 2nd Ed. Describes land planning as a systematic process, with step-by-step procedures to show how the concepts involved can be applied in the design studio, drafting room or at the site. Comprehensive explanations of site analysis, programming, schematic study and detailed site design are included. Hundreds of photographs, teaching diagrams, and quotes illustrate and amplify the discussions on the creation of more expressive and usable outdoor spaces.
